				8:15-9:00	Jumps & Turns	11+	0														

All **Jr, Pre-Inter, and Inter combo classes** will have two dances and two costumes. For example: Sally is enrolled in Inter Musical Theatre/Lyrical combo. Sally will learn and compete with TWO separate routines and will require TWO separate costumes. This also means Sally will have competition entry fees for TWO dances. The 'combo' class structure allows parents to save \$300+ on class fees. These combo classes are choreo only classes and will require dancers to take an additional technique class.

All **pre-jr combo classes** will have two dances but one costume for both dances. For example: Bob is enrolled in pre-jr ballet/tap combo. Bob will learn and compete with TWO separate routines, but will have ONE costume. This also means Sally will have competition entry fees for TWO dances. The 'combo' class structure allows parents to save \$300+ on class fees and \$95+ on costume fees per class.

All competitive classes have the option for dancers to join recreationally (other than senior dances). This means they will work on the routine with the rest of the class and the routine will be choreographed in a way so that said dancer's absence is not noticeable when the rest of the students perform at competitions. Rec dancers can choose whether they would still like to perform in the recital with the group or not (costume fee will be charged if participating in recital). Competitive and rec students are combined so that all dancers get the same training and experience as well as get to participate in dance with their friends even if they do not want to compete. The studio must be notified if your dancer is not competing upon class registration otherwise competition fees will be posted to your account.
